Study FIGURE 2, an article on managing the challenges of urban growth.

FIGURE 2

Tam Tam Mobile is a community waste disposal scheme in Melen, an area of Yaoundé, the capital city of Cameroon. Before the scheme, the area had no waste collection and the waste ended up in ditches and blocked drains when it rained.

The scheme started in 1997 and has grown so that now a team of 60 people are paid to collect waste from 300 houses.

Recently, the United Nations widened the unpaved roads for easier access for waste collection. A local charity helped train staff and provided protective clothing, gloves, wheelbarrows and rubbish bags.
